WEEKLY REPUBLICAN—1907.
DAILY PUBLIC LEDGER—1893.

EBENEZER GRAY.

He thought he was a Christian—
Did Ebenezer Gray,
He never missed Church meetings
And was glad to pray.
He did not let religion
Hurt his business through the week,
But every Sunday morning
He was righteous like and meek.

He used to have a manner
That would make a clown feel blue;
He used to chill his neighbors,
And his home was chilly, too;
But in the Church on Sunday
You could never find him late,
And when it came to rooting
In religion, he was great.

He used to skin all comers
Through the week and like the game;
Yet claimed to run his business
In the Master's holy name.
He never let the doctrine
Used on Sunday, understand,
Affect upon a week day
Any deal he had on hand.

Some people called him "brother,"
And great numbers called him names;
The latter people being
Those who fathomed all his aims.
He died in proper season—
Crossed unto another shore—
And this is what St. Peter
Told the fellow at the door:

"While you were good on Sunday,
Through the week, Eh, you were tough;
Hence, when I speak your sentence,
Do not think that I am rough;
Now you can spend your Sundays
Here in heaven very well;
But week days, Ebenezer,
We're going to give you hell."

—Mantle (P. I.) Freedom.

Wiley Scott met with a peculiar accident at
Ellaberry. He was sitting on the end of a log

broken, besides sustaining other injuries.
When rescued he was almost drowned.

Major William Goodloe, aged 66, died at

Mason, a veteran of the Federal Army and a
leading Republican in politics. During the
War he served in General Fry's command as
Adjutant and afterwards served on Fry's staff.

The Park City News of Bowling Green says:
"Miss Sadie Shepard of Maysville has arrived
and taken her place as trimmer for Miss Teresa
Massey. Miss Shepard has already spent three

CASE ON TRIAL.

A Hobo's Suit For \$25,000 Against
the Chesapeake and Ohio.

The \$25,000 damage suit of Elmer McCabe
against the C. and O. Railroad was called for
trial in Judge Hodge's Court at Newport yester-
day. McCabe, with two other Newport train
jumpers, it will be remembered, was run over
by a train near the Station in this city while
all three were asleep on the main track about
a year ago.

The latter two died from the effects of the
injuries and the plaintiff lost a leg.

His attorneys, Veith, Wright & Wright, al-
lege negligence on the part of the Company in
failing to have watchmen to guard against such
accidents.

BIG CLAIM SETTLED.

Mason County Building Association
Settles With Auditor's Agent.

Even the State Auditor himself didn't know
there was such a law, or he would probably
have notified the Building Association officers
long ago, as he notifies other corporations that
they are liable for certain taxes.

Under a recent enactment of the Legisla-
ture, Building Associations are taxable on
whatever "surplus" they have on the 15th day
of September in each year. This made the
Mason County liable for a small amount, and at
a conference last night between the Directors
and Auditor's Agent Watson the recent suit
was adjusted to the complete satisfaction of
all parties.

The amount paid in full settlement was a
shade under \$300.

IT'S DYING OUT!

The Senseless Smallpox Scare Has
About Expended Its Force.

As there must be an end to all things, the
unwarranted "scare" about smallpox in this city
is rapidly dying out, though Flemingsburg has
been reinforced by Augusta in quarantining
against Maysville.

However, Hon. George Doniphan of the latter
place was here yesterday on a "permit" issued
by the Health Officer of his town, and it is pre-
sumed he will represent to the Augustans the
exaggerated reports that have gone abroad
about the condition of affairs in this city.

The only new cases that have developed here
within the past twenty-four hours are those of
Albert D. Hall, Lexington street near Third,
and Miss Anna McIlvaine, Limestone near
Third.

During yesterday and last night all houses on
the Fleming pike from which patients had been
removed to the Pesthouse were thoroughly
fumigated, guards have been placed over
premises where the few remaining cases are,
and the only possible danger that exists now
is to those who insist on going into houses
where the disease is.

THE LEDGER feels that it has fearlessly dis-
charged its duty to the public by giving the ex-
act facts as far as they were ascertainable, and
it has spared neither time nor labor to get at
the truth. It cares nothing for the "criticisms"
of those who are so wise in their own
conceit that they do not think investigation
necessary; who rely upon every idle rumor that
they hear, and whose very existence seems to
depend upon the circulation of falsehood.

It is conscious of its own course, and is glad
to know that its stand is endorsed by the en-
tire medical faculty and by all who have the
interests of the community at heart.

A Remarkable Case.

One of the most remarkable cases of a cold, deep
seated in the lungs, causing pneumonia, is that of
Mrs. Gertrude E. Penner, Marion, Ind., who was
entirely cured by the use of One Minute Cough
Cure. She says: "The coughing and straining so
weakened me that I ran down in weight from 145
to 92 pounds. I tried a number of remedies to no
avail until I used One Minute Cough Cure. Four
bottles of this wonderful remedy cured me en-
tirely of the cough, strengthened my lungs and
restored me to my normal weight, length and
strength." J. Jas. Wood & Son.

THAT'S THE LEDGER.

The Rev. T. DeWitt Talmage says—
"A newspaper whose columns over-
flow with the advertisements of busi-
ness men has more influence in at-
tracting attention to and building up a
city or town than any other agency
that can be employed. People go where
there is business. Capital and labor
will locate where there is enterprising
community. No power on earth is so
strong to build up a town as newspa-
pers well patronized, and this power
should be appreciated."

The Court of Appeals adjourned yesterday
until the April term.

The appellee in the suit of Sparks vs. Sheriff
Roberson, taken up from this county, filed a
brief in the Court of Appeals Tuesday.

Cartmell extracts teeth without pain.

tary branch of the Order. The Lodge at that

THE LEDGER is heartily in favor of a new Capitol for Kentucky—and of a new Capital also.

HAVING paid her state debt, how would it do for Uncle Sam to build a new Statehouse for Kentucky?

ABOUT a year ago robbers made a raid on the Salt Lick Deposit Bank, Bath county, and got \$1. A few days ago another attempt was made, but the enterprising looters didn't get enough to pay for the dynamite that blew the safe door through a brick wall.

THE Louisville Herald says the difference between a Kentucky Legislature representing the people and one representing the machine is that the former would practice economy and upbuild the state, while the latter scatters the public funds to strengthen the machine. The people should choose a Legislature in their own interest, which is not that of the machine.

THE Fleming Gazette of yesterday is to be congratulated on its accurate and conservative treatment of the smallpox "hurrah" in Maysville. But for the industrious mouthsmiths, there would have been no "excitement" over the comparatively few cases in and near the city. The fact is, there were more cases here in December than there are now, and nobody was unduly exorcised over the situation then. The "sensationalists" ought to be vaccinated with a club—and all other people with ordinary virus.

A combination is being made of all the street-car lines between Buffalo and Chicago, with a capitalization of \$100,000,000.

The record yield of timber from one tree is 80,000 feet, from a redwood twenty feet in diameter, cut last year in California.

## Echoes From the Press!

THE LEDGER is highly appreciative of the kind words spoken by its contemporaries in reference to its new dress, and takes pleasure in reproducing a few opinions—

Portsmouth (N. H.) Tribune.

### A NEW DRESS.

THE MAYSVILLE LEDGER recently appeared in a new dress, which greatly adds to the appearance of the paper. Continued prosperity to Maysville's progressive daily.

Lexington Herald.

### LEDGER DONS A NEW SUIT.

THE MAYSVILLE PUBLIC LEDGER, always attractive and enterprising, has just donned a new spring suit which adds much to its appearance. The LEDGER is too progressive to wait for Easter to wear its new clothes. The Herald hopes and believes that THE LEDGER will never have to wait for anything—subscriptions included, if any paper may in this world be without the delinquent subscriber—and wishes that it may live to wear out many more dresses of type in meritorious and profitable public service.

**MURPHY, The Jeweler.**

MR. CHARLES LAMBERT of Covington has withdrawn from the race for Railroad Commissioner from this District. This doesn't hurt the chances for Mr. CHARLES L. GRAY of Augusta—not a bit.

THE United States Steel officials say that the rail requirements for 1903 are three times as great as those for 1902. It was bad enough on the farmers last year, but with this year's demand three times as great, it will be interesting to know where they will get money to lay in their season's supply.

HERE is what the mud roads of Maysville have cost each year for seventeen years past—

|            |              |           |             |
|------------|--------------|-----------|-------------|
| 1886.....  | \$ 9,397 41  | 1896..... | \$ 4,572 30 |
| 1887.....  | 6,284 17     | 1897..... | 10,076 99   |
| 1888.....  | 6,109 78     | 1898..... | 3,700 45    |
| 1889.....  | 5,125 85     | 1899..... | 3,096 33    |
| 1890.....  | 5,449 75     | 1900..... | 4,496 82    |
| 1891.....  | 6,258 12     | 1901..... | 4,378 54    |
| 1892.....  | 6,660 75     | 1902..... | 3,871 88    |
| 1893.....  | 21,673 36    |           |             |
| 1894.....  | 9,002 06     |           |             |
| 1895.....  | 6,881 16     |           |             |
| Total..... | \$116,955 72 |           |             |

Just think of it—\$116,955.72 absolutely wasted, for we have just exactly the same sort of streets that we had before a dollar of this money was spent. If in 1886 the city had borrowed \$100,000 at 4 per cent. and built streets with that money, it would have cost the taxpayers \$4,000 a year for interest, or \$68,000 for the seventeen years.

The account would then look something like this—

|                              |              |
|------------------------------|--------------|
| What it has cost.....        | \$116,955 72 |
| What it would have cost..... | 68,000 00    |
| Saving to taxpayers.....     | \$ 48,955 72 |

Besides, we would have had seventeen years of the pleasure and comfort that follow good streets and clean surroundings.

## GOOD SEEDS GROW GOOD CROPS.

That's why you should buy Landreth's Seeds, as you get fresh seeds and of known variety. All Landreth's Seeds were grown last year from seeds whose variety had been proved and under the most favorable conditions for each kind. They had the precise attention of details in gathering, etc., which only the practical seed grower knows how to give. All this should make them worth more to you than seeds picked up here, there and anywhere; but we sell them as low as you pay for the inferior kind.

## Oliver

Gate to the world the Chilled Plow. The magical word Oliver is a guarantee of quality.

Mr. Oliver still controls the chilling process that has made the Oliver Plows so famous. Every genuine Oliver Plow Point or other repair has Mr. Oliver's name stamped upon it, and this name certifies that that piece is double chilled and will scour free and last almost twice as long as a part chilled in the imitation way. Notice one peculiarity of an Oliver Plow: Note this well, for it means much to you—An Oliver Point also includes the Cutter. When you put on an Oliver Point you have an entire new cutting surface; you virtually have a new plow. Upon other plows the point and cutter are separate, and you have to buy two parts at double the expense to secure a new cutting surface. Remember this, please: Oliver parts all fit nicely. An Oliver Point fits just as nice as the first one that was put on the plow. Oliver Mouldboards, Standards, Landsides all fit; your Oliver Plow works just as nicely when it is ten years old as it did the first year. We ask you to candidly say if this is the case with any other plow on earth. When you spend your money get all you can for it. The most value that a man gets in anything is an Oliver Plow. Oliver Plows are absolutely guaranteed.

## Worth Thinking About!

## TAXATION IN KENTUCKY.

## A Democratic View of Democratic Legislation.

## Looks Like An Organized Effort to Drive Capital Out of the Old State.

Lexington Herald.

We doubt if there is a state in the Union in which the system of taxation—state, county and municipal—is as unscientific and burdensome as in Kentucky; and none where the method of enforcing the collection of the taxes assessed is more harassing, and it is more annoying than the system itself. Lord Brougham is reported to have said that the announcement of Lord Campbell that he would write the lives of the Lord Chancellors as they respectively died, had added a new and incalculable terror to death. Some similar statement might be made of the tax gatherers in Kentucky. Before burial some of these excellent, but most energetic and keen-scented gentlemen, begin the pursuit of omitted or back taxes, though those who are especially courteous and sympathizing do permit the burial services to be performed before information is filed with the County Judge. If any capitalist is tempted to come into the state to make investigations for the purpose of investing capital in the development of our mineral resources or for the building up of any new industry, he is immediately put under espionage, and if he should happen to enter into any executory contract and commence operations he is jumped with a summons to appear somewhere before some officer to answer to the charge of being able and willing to aid in making Kentucky richer and constructing new enterprises in her borders, and may be to pay taxes for the privilege. In Bath county, land that could be sold at perhaps \$5, but under which oil has been found and is contingently valuable, is now assessed at enormous values. And notice is thereby given to all the world that no one need expect any treatment but heavy taxation if he dares to come into Kentucky and invest money to develop the hidden wealth of the state.

We believe in the equal and impartial distribution of the burdens of taxation—in such tax laws as will fairly distribute the burdens of the government. But there are some simple principles in the assessment and levying of taxes that ought to be regarded and cannot be violated without injury to the community. And the proper treatment of the nascent oil interest furnishes an excellent illustration of the harm that may be done by unwise laws or grasping and unwise administration.

It is probable that in several sections of Kentucky are valuable oil deposits or reservoirs; the oils found are of far different qualities and values, and as yet it is not settled that in any of these fields are there reservoirs of such extent and so full as to be of permanent value. As yet it is an experiment of doubtful success. In all the sections where oil has been found the land has been quite cheap, of little salable value and not of any value for tax purposes. Many thousands of dollars have been expended in these efforts to develop these oil fields; and the return has been insignificant. Money has been made by the owners of the lands on which wells have been bored; more money made by the promoters of some of the companies; small dividends realized by the stockholders in a very few of the companies. As yet the money expended will be wasted unless greater results are attained and these results cannot be gained except by the expenditure of large additional large sums. And if oil is found large sums must be expended to get the oil to market. But if the oil fields are indeed valuable; if the oil is both abundant and of fair quality, Kentucky will reap enormous profits. Pipe lines will be constructed; refineries erected and these poorer sections of Kentucky will become as rich as the oil regions of Pennsylvania or Ohio. True wisdom would dictate that every possible inducement be held out to capitalists to come into the state and into every county where there are indications of oil and make full efforts to ascertain the extent and value of the deposits. And it must be remembered that natural gas is ordinarily found in the neighborhood of oil and the value of this gas as a fuel and as an inducement to the erection of manufacturing is inestimable. It would seem to be clear that any obstacle put in the way of those ready and able to make these experimental tests and expend large sums of money in these uncertain ventures is folly—worse than folly. Instead of adding burdens of taxation our cities and counties can well afford to invite

## The Stomach Is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. J. J. Wood & Son.

this capital to come among us and free it from burdens until the test is determined; and then if it be successful, fair and just taxation ought to be enforced.

Unfortunately, the reputation of this good old state of ours as to its treatment of non-resident capital and of resident corporate capital is not reassuring to those who otherwise might invest within its limits. Indeed, it is the habit of our own citizens to incorporate themselves under the laws of some other state so as to have the privilege of going into the Federal Courts in the event of dangerous attack. And premature and oppressive taxation of uncertain and somewhat speculative enterprises—as oil drilling must be—will be of harm in many ways and to unknown extent.

## SPRING TIREDNESS

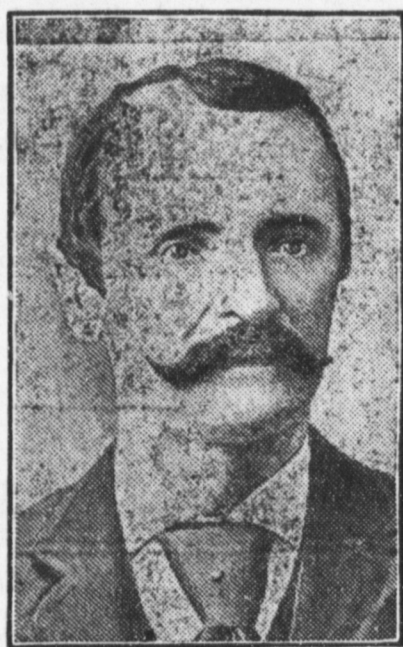

Is Caused By Unhealthy Action of the Liver and Kidneys Assisted By Starved Blood and a Poor Circulation.

## Paine's Celery Compound

Nourishes the Life Stream and Strengthens Every Organ of the Body.

The great virtues of Paine's Celery Compound are abundantly manifested in the spring. It is a medicine compounded specially to brace the nerves, to sustain heart action, to cleanse the blood and keep the stomach, liver and kidneys in vigorous health.

In the springtime the effects of the winter's work, the worries of business, household cares and the severe changes of temperature all conduce to weakened and inflamed nerves,

insomnia, poverty of the blood, deranged digestion, liver and kidneys in bad condition; in thousands of cases rheumatism and neuralgia commence their horrible tortures. Paine's Celery Compound, used three or four times a day for the next four weeks, will furnish the proper and needed elements of life for the growth and repair of the whole body. It will quickly make new nerve fibre, nerve force, pure, rich blood, will bestow sound health and long years of life.

Mr. Elijah Bowman of Caledonia, Mich., says:

"When I think of the misery and agony I endured formerly and being entirely cured by Paine's Celery Compound, I feel indeed thankful for the discovery of this wonderful medicine. I take a little of the medicine every spring. It brightens a person up and drives all the laziness out of the system, and makes one feel cheerful and bright."

## What's In a Name?

Everything is in the name when it comes to Witch Hazel salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles, For hemorrhoids, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases. DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's, the genuine. J. J. Wood & Son.

A convention of the Christian Churches of Fleming county is to be held at Hilltop next Wednesday and Thursday. The C. W. B. M. session is to be conducted by Mrs. B. W. Burdette of Germantown, and Revs. Bela Metcalfe and W. C. Morrow of this county are down on the program for addresses.

## STARTLED

By some sudden sound she drops the vase upon the floor. She is nervous and may be told that nervousness is a luxury which only a rich woman can afford to indulge in. Nervousness has cost many a woman her position. Sometimes when women run machinery the price of nervousness is mutilation,—a finger lost or perhaps the whole hand crushed.

Nervousness in women is commonly but a symptom of womanly disease. It is useless in such cases to "doctor" for the nerves alone. Cure the diseases which attack the delicate womanly organism and nervousness will be cured also.

Dr. Pierce's Favorite Prescription makes weak women strong, sick women well. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves and induces refreshing sleep.

"In the fall of 1897, I was troubled with nervousness, headache, heart trouble and female weakness," writes Miss Blanch M. Bracey, of Sala, Oswego Co., N. Y. "Last summer I wrote you and you advised me to try your 'Favorite Prescription' and 'Golden Medical Discovery.' I did so and I began to improve rapidly. Continued taking the medicine, half a dozen each of 'Favorite Prescription' and 'Golden Medical Discovery' for the space of five months, and in less than a year had regained my former health."

## GRIP CONVALESCENCE

There's nothing better than Scott's Emulsion after the grip. When the fever is gone the body is left weak and exhausted; the nervous system is completely run down and vitality is low.

Two things to do: give strength to the whole body and new force to the nerves. Scott's Emulsion will do it; contains just what the worn-out system needs.

Rich blood, healthy flesh, resistive force, more and better nourishment are what Scott's Emulsion supplies to the convalescent.

We'll send you a sample free upon request.

## PUBLIC LEDGER

Maysville Weather.

What May Be Expected Here During the Next Thirty Hours.

### THE LEDGER CODE

White streamer—FAIR;  
Blue—RAIN OF SNOW;  
Black ABOVE—WILL WARMER GROW.  
Black BELOW—COLDER WILL BE;  
If Black's not shown no change we'll see.  
The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock tomorrow evening.

High winds prevailed on the river all Monday night and Tuesday, interfering with towboat movements. The James Moren went to the bank at Augusta waiting for the winds to subside. The packets were not interfered with, and were in and out on time.

Owing to an accident to the yacht at Cincinnati of Victor Emerson, an inventor who claims that he can produce a speed unparalleled in river and ocean navigation, the trial was postponed. She had two blades taken off her propeller by having it strike the ground. This will necessitate the casting of a new wheel. It is announced that the trial will take place on Lake St. Clair, near Detroit, Mich.

The contest between the towboat D. T. Lane and the propeller James Rumsey, which was built for the United States Government for service in the Kanawha river, has been provocative of much discussion among steamboat owners and managers in the Queen City. As a result of this discussion several propositions have been made in the wager line. Captain Fred Hartweg of the Huntington and St. Louis Towboat Company expressed himself as willing to bet \$100 that the Lane could push 10 barges to the Rumsey's 8 or that the Lane can push 3 barges to the Rumsey's 2, the other conditions of the contest to be agreed upon at the time the wager is made. Captain Val P. Collins volunteered to furnish the barges for the trial free of charge.
